

Pregame Protocol

Officials should ask the following questions of the home school prior to every AIA contest. Officials are simply to ask the questions. **The game will be played regardless of the answers.**

- Ask the home team to identify who their medical personnel are on site. That individual should be pointed out to you.
 - If there is a suspected head injury or possibility of concussion, a student can only return to play by a qualified medical professional.
 - Doctor of Osteopathic Medicine (DO)
 - Medical Doctor (MD)
 - Nurse Practitioner (NP)
 - Physician's Assistant (PA)
 - Athletic Trainer (ATC)
 - If they do not have any of the above identified and on site, then players removed from the game, for a possible head injury or concussion, cannot be returned to the game.
- Is there an Emergency Action Plan (EAP) in place?
- Is there an Automated External Defibrillator (AED) available and accessible?
- Where is the Emergency Entrance for this facility?
