

# 2019-2020 Difficulty Scoring Rubric

## Pom

### COMPLEXITY OF MOVEMENT RUBRIC

Movements that a minimum of 75% of the team execute as well as the entire piece of choreography, from start to finish, is taken into consideration.

A movement is defined as motions choreographed to create visuals, transitions between formations, use of the floor, and footwork.

### DIFFICULTY

#### 0 - 4 points

Stationary one or two count movements  
Routine stays mostly center  
Dancers walk to each formation  
Transitions take **one 8-count** to occur  
Choreography does not blend throughout

#### 5 - 8 points

Stationary one count movements  
Routine moves up/down floor, but stays center  
Dancers walk or run to each formation  
Transitions take **four - eight counts** to occur  
Some choreography blends throughout

#### 9 - 12 points

Stationary one count movement with footwork  
Routine moves throughout entire floor  
Dancers have choreography to each formation  
Transitions take **four counts** to occur  
Choreography blends throughout

#### 13 - 15 points

Shifting "and counts" movement with footwork  
Routine moves throughout entire floor  
Dancers have choreography to each formation  
Transitions take less than **four counts** to occur  
Choreography seamlessly blends throughout
