- 39.3 PHILOSOPHY OF SPIRITLINE**
 Spiritline shall serve as a support group for the interscholastic athletic program within the school and, as such, play a very important role in the administration of athletics/activities contests. Each squad should strive to boost school spirit, promote good sportsmanship, develop positive crowd involvement, and help student participants and spectators achieve the most worthwhile educational objectives of the interscholastic program.
- Spiritline (cheerleading/pom-pom) activities should center on "leading" or "directing" the cheering of student and adult fans. In this role, cheerleaders/pom-pom can become the school's most effective student leaders. Spiritline activities should be focused on: creating a cooperative spirit among the cheerleader/pom-pom squads, athletes, student bodies, school administrators and the communities; recognizing outstanding plays and examples of good sportsmanship on the part of both teams; and aiding the school and contest officials in the promotion of good sportsmanship and in the administration of the contest.
- Performing is a secondary role of cheerleading/pom-pom and can effectively promote school spirit when included at appropriate times at interscholastic contests such as pre-game, non-injury time-outs and intermissions, as well as pep rallies and assemblies.
- Being the most recognizable representatives of a school, spirit groups are in a position of great influence; therefore, high standards of conduct are essential. Positive personal behavior and squad cohesiveness demonstrate these standards. Appropriate behavior will help earn the respect of the student body, which is the core of developing effective school spirit and student involvement.
