### WRESTLING

#### 33.1 RULES

- 33.1.1 Official rules for wrestling shall be those published in the current edition of the National Federation Wrestling Rules Book.
- 33.1.2 School athletic programs at all levels are subject to disciplinary action when a school team is removed from the floor or field prior to completion of the contest.
- 33.1.3 A wrestler will be allowed to compete in the sectional and post-season tournament at the lowest certified weight. The Executive Board shall establish a date in which a student-athlete may begin the weight certification process.

#### 33.1.4 Weight Certification Models

33.1.4.1 The AIA and its member schools will use the following guidelines based on the National Wrestling Coaches' Association (NWCA) Weight Certification Model:

- Minimum body fat of 7% for males and 12% for females, determined by bio-impedance weighing;
- Body hydration level (specific gravity) equal to or less than 1.025 g/ml. Urine test is *pass/fail*.
- Establish an "*alpha*" weight (weight at time of bio-impedance initial assessment) for each wrestler;
- If a wrestler's body fat is *less* than 7% (male) or 12% (female) at the initial weight certification, and the wrestler passes the hydration test, their "*alpha*" weight will be the lowest competitive weight allowed;
- Collection and input of testing data into the NWCA Weight Certification Model will be done by AIA approved assessors.

##### 33.1.4.1.1 Appeal Process

Any athlete who disagrees with the Initial Assessment may appeal the assessment results ONE time by having a second assessment within 14 calendar days and performed prior to the athlete's first Regular Season wrestling Contest. This shall be consistent with the athlete's weight loss decent plan and the results obtained at the Second assessment shall supersede the Initial Assessment; therefore no further appeal by any party shall be permitted. The second assessment shall utilize either Air Displacement Plethysmography (Bod Pod) or Hydrostatic Weighing testing to determine body fat percentage. All costs incurred in the second assessment shall be the responsibility on those appealing the initial Assessment.

- 33.1.5 Weight loss may not be more than 1.5% of the "alpha" weight (weight at time of certification) per week. Wrestler will follow the prescribed weight loss process of the NWCA weight certification model (nwcaonline.com).

***DETERMINATION:** Coaches or their designees (athletic director or school assessor) MUST print out a weigh-in sheet for every weigh-in their school participates in for the AIA wrestling season. It is required that each school presents minimally two copies of their weigh-in sheets at weigh-ins, one for themselves and one for their opponents. In events of multiple schools, multiple copies of this sheet must be made available for each opponent. No wrestling may occur until the team can produce an NWCA Performance Calculator weigh-in sheet. A school cannot deny an opponent or visiting school from using their computer system to access the NWCA Performance Calculator if they so request. (Ex. Bd. 10/19/09).*
